CORPORATE

Baki Kitchenware, whose foundation dates back to 1982, started kitchenware production with aluminium tea pots. Since then Baki Kitchenware has always invested in technology and become a leading producer in the kitchenware sector. Offering different types of non-stick, steel, copper and aluminium kitchenware products with competitive prices, today Baki kitchenware exports most of its products to 4 different continents and takes place in the world cuisine. Baki Kitchenware has structured its business model as “production only”. While putting some of its production on the market under its own brands, Baki Kitchenware also offers the rest of its production to world brands by contract manufacturing.

Baki Kitchenware carries out its production based on 6 values

Competitive and Different Products Through Research and Development Investments

Norms Rising Over Honesty

Absolute Customer Satisfaction

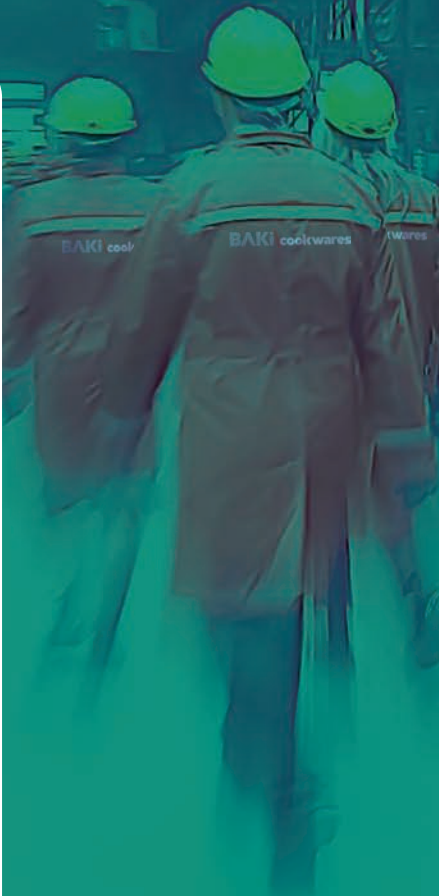

Competitive Pricing Policy

Production Capability Suitable For All Sections and Segments

Flexible and Fast Production Plan

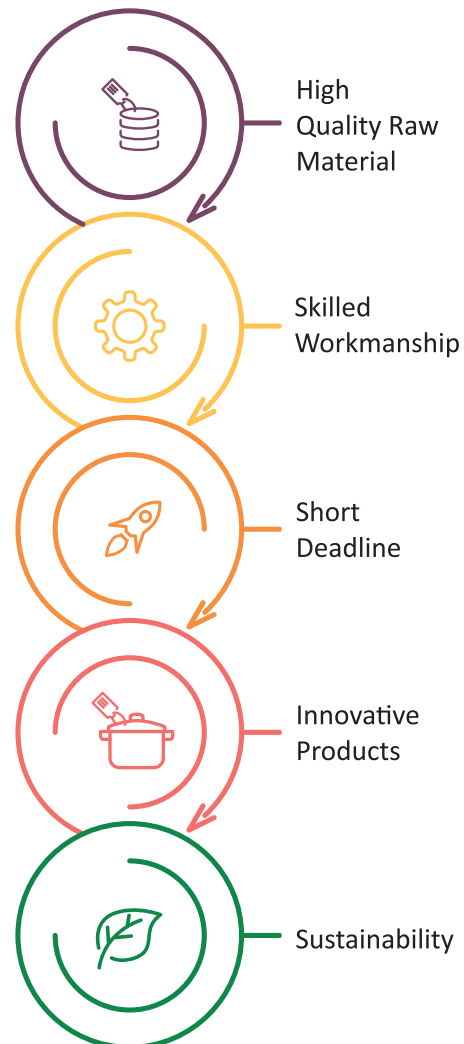

PRODUCTION

We have been producing for the world with our extremely wide range of product portfolio including non-stick, steel, copper and aluminium at our factory equipped with the latest technology in Kahramanmaraş, the favourite city of metal kitchenware sector.

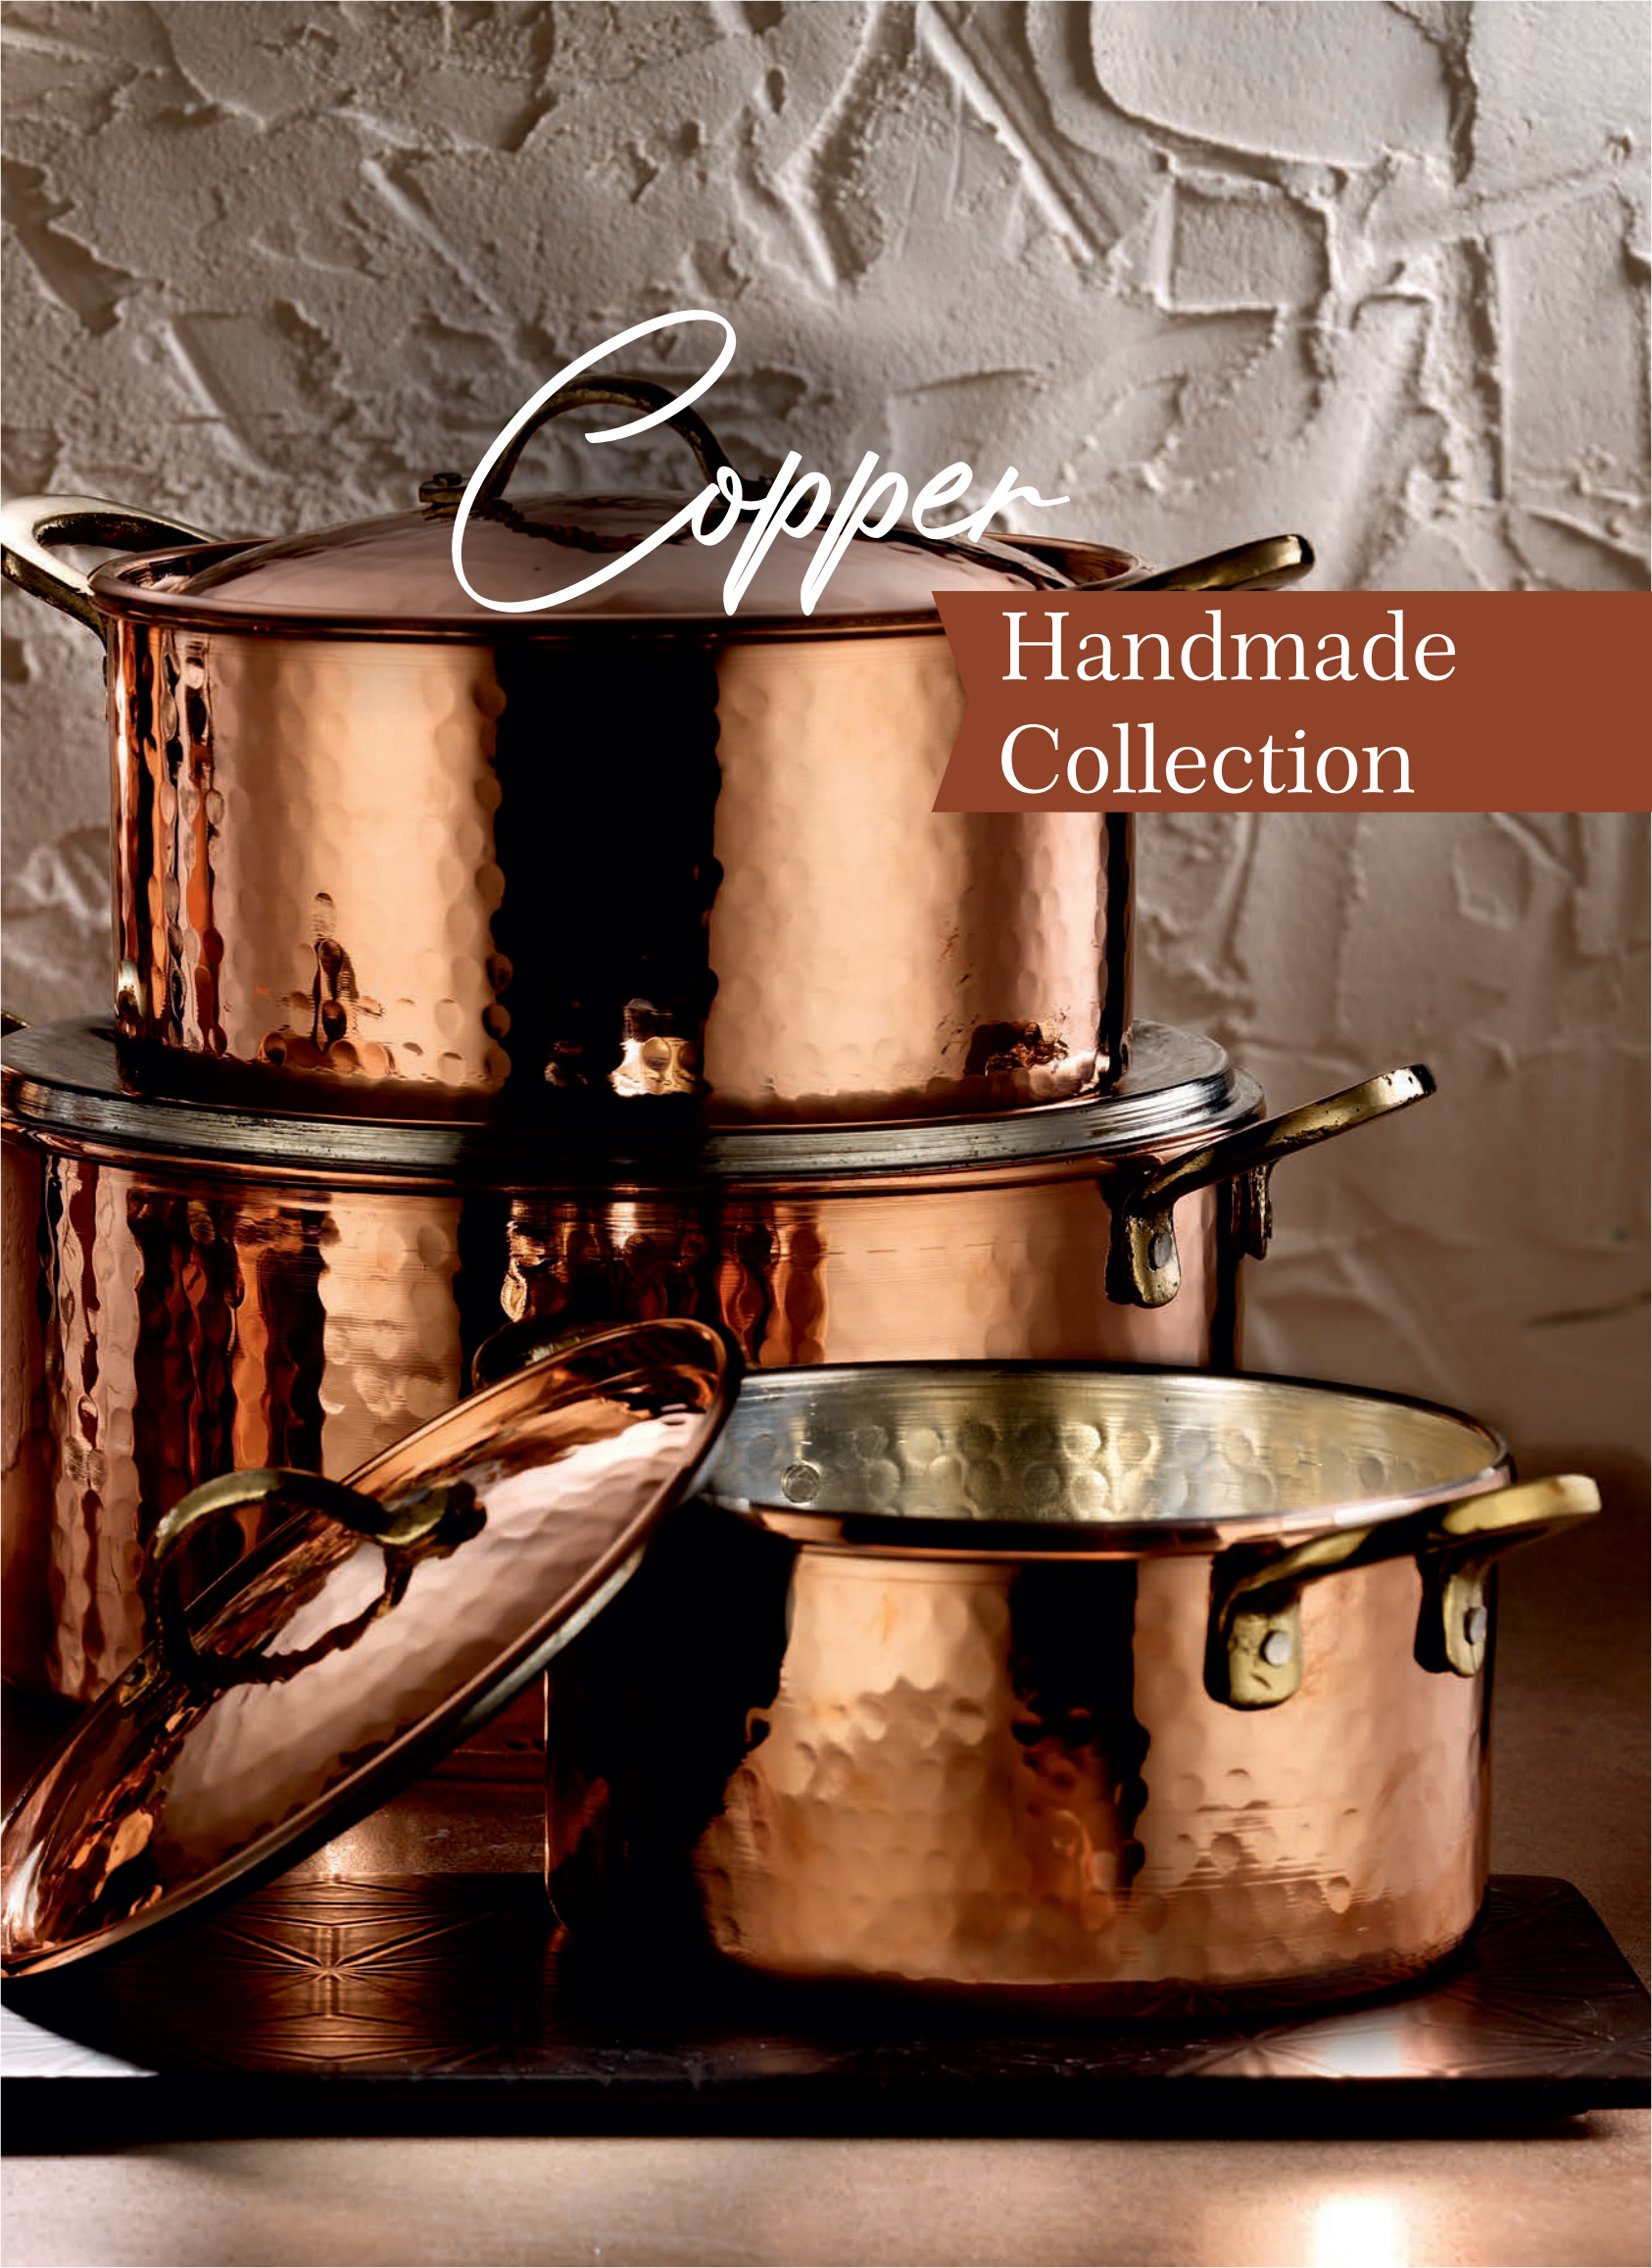

Thanks to our capability of production exclusive for any segment and quality, we can carry out tailor made production in any amount, thus enhancing the competitive power of our customers in the market.

Traditional
&
Common

A still life photograph of aluminum cookware. In the background, a large aluminum stock pot sits on a wooden shelf. To its right, a glass jar is filled with dry, thin, yellow pasta. In the foreground, a medium-sized aluminum pot with a lid is placed on top of a larger aluminum stock pot. To the left, another aluminum pot with a lid is partially visible. In the bottom foreground, two wooden spoons lie on a dark surface. A green woven placemat is under the medium pot. A bottle of beer is on the left. The background is a dark, textured wall.
